BG Property Valuated At Over \$8 Million

BELLE GLADE — 1956 tax rolls for personal and real property were officially accepted by the City Commission at its regular meeting Wednesday night. A millage of 15 was established and will produce a total of \$120,211.77 for city coffers.

Land valuations in the city totalled \$2,387,550, and buildings \$7,659,984. Homestead and other exemptions knocked taxable property down to \$6,271,334.

FINANCES AT EMH BETTER

PAHOKEE — A glowing report to the effect that Everglades Memorial Hospital is on solid financial ground was given this week by Administrator Ray Kiedzik at the annual meeting of the board of directors.

The meeting was something of an "alumni" reunion, as almost all former hospital board members and their wives were among the 25 guests in attendance.

Kiedzik said that hospital billing during the past fiscal year climbed to \$136,799.97. Although it is estimated an audit will show a break-even year, although he believes the audit will also show that about \$12,000 in old obligations were cleared up during the year by the hospital.

A. B. Harrington was elected chairman of the board for the coming year, succeeding Albert Fremd, whose term as board member has expired. New member of the board is O. H. Shepherd. Other directors are Jess Elliott, vice-chairman; William Moss, secretary-treasurer, and Robert Apelgren.

Frank Kelley Is South Bay Mayor

SOUTH BAY — Frank W. Kelley was elected new mayor of South Bay by his fellow commissioners at Monday night's regular meeting of the City Commission.

Kelley previously served as mayor of the city four years ago. He succeeds Commissioner Ray Sullivan, who will head the city's water department.

S. J. Fisher was elected vice-mayor and heads the streets and parks department. Other commissioner appointments were Henry Ellers, police, and W. L. Wheeler, fire and sanitation.

The officers were sworn in by City Clerk Alvin B. Crow. All present city employees were re-hired.

The commission formally adopted the budget for the fiscal year. It totals \$60,329.

Rep. Roberts On Prison Committee

BELLE GLADE — Rep. Emmett Roberts of Belle Glade has been appointed to serve on a special Prisons and Convicts Interim Study Committee.

Roberts was advised of this appointment yesterday by a telegram from House Speaker Ted David, of Ft. Lauderdale. The committee will prepare a report and make recommendations on prison reforms, to the next session of the state legislature.

Meanwhile, the committee will work closely with state budget officials for use of emergency funds for the prison system, Roberts said.

ABSENTEEISM TO BE CURBED

PAHOKEE — The City Council took steps at its Monday night meeting to tighten the screws against absenteeism by councilmen from official meetings.

With only Council President George Tucker, Jr. and Councilman Edgar Wilder and John Hatton present, the council authorized City Attorney Ralph Johnson to draft an ordinance covering absenteeism.

Terms of the ordinance would make loss of a council seat automatic if a councilman missed any three meetings a year, unless illness were the cause of the absence.

Councilmen Loren Meredith and Mrs. Blanche Armstrong, who is ill, were absent from the meeting.

A proposal to set up a civil service pension plan for about 20 city employees was presented by Vance Denton. The matter was tabled after Tucker appointed a committee of employees to discuss the pension plan. Named to the committee were E. J. Schneider, Marvin Cowart and Frank Thompson.

City Clerk Patsy Batchelor was instructed to notify harvest labor contractors and growers to appear at City Hall on Monday at 11 a.m. for annual drawings for loading some spaces within the city.

In other major action, the council:

VOTED to ask for bids for a new police patrol car, and a new fire engine for the police and fire departments.

APPROVED naming the new civic building the "Pahokee Civic Center."

GRANTED request of the BPW club to stage an election-day barbecue on City Hall grounds Nov. 6.

APPROVED plans for a utility building to be built on the site of the old City Hall.

GAVE NOTICE that trucks unloading at business places must be parked in alleys where possible.

VOTED to keep city records up-to-date by obtaining data on transfers of title from the county.

OKAYED paying a bill of \$433.87 to Port Mayaca Cemetery.

GLMA Directors Are Re-elected

BELLE GLADE — Roy Vandegriff, sr., and Dr. E. J. Graham, both of Pahokee, were re-elected to three-year terms as members of the board of directors of Glades Livestock Market Association at the annual meeting of association members Wednesday night.

New officers of the association will be elected soon in an organizational meeting of the directors, who also include John L. Evans, president; Leland Pearce, vice president; Otto Larsen, secretary-treasurer; and C. Frank Wilson of South Bay and E. M. Van Landingham of Belle Glade.

At the Wednesday meeting, Larsen revealed that the Glades market handled more beef tonnage last year than it did in any previous year. Total sales for the year exceeded \$3,960,000, he said.

AIRPORT TOPIC AT COM. MEET

WEST PALM BEACH — The County Commission this week considered using the Glades Airport at Pahokee in the area's airport expansion program, according to a press release from the commission.

Commissioners were advised that the Glades Airport offers adequate facilities for "some type of aviation use" and land is also available at the port for industrial sites.

Meanwhile, the commission voted to immediately procure right-of-way for a road leading into a federal wildlife refuge west of Boynton Beach, and to start making plans for construction of a road into the area.

The commission has refrained from taking positive action about the possibility of building an access road from the Glades to the new Pratt & Whitney industrial site north of Loxahatchee.

School Needs Detailed In Glades PTA Sessions

Glades residents received first-hand information Monday night as to how their schools would benefit if the countywide \$10,900,000 bond issue is approved by voters at the Nov. 6 election.

Featured at PTA meetings in Pahokee and Belle Glade Monday night were county school system officials, who backed their remarks on the school situation with volumes of facts and figures.

County School Supt. Howell L. Watkins spoke at Pahokee. He described the history of Palm Beach County school financing from the early 1920s.

Present day schools in the Glades and throughout the county are sadly inadequate and are faced with a year-increasing enrollment. Watkins said. Classrooms are too few in number, cafeterias are out of date, and school libraries below standard, he said.

Answers to questions were given by Watkins and a local panel comprised of School Board member T. W. Knight, A. R. Harrington and James Vann. Among items clarified was the fact that the bond issue to be voted upon in the upcoming election will be paid for by a county-wide millage of 3 mills. In Pahokee, this represents an increase of 2 1/2 mills, it was explained.

The bond issue would provide a new lunchroom for Canal Point; four classrooms, a gymnasium, lunchroom and music room for Pahokee schools; and five classrooms and additional toilet facilities for the East Lake school.

The Belle Glade panel discussion was presided over by Henry Earwood, county school board member from that city. Featured panelists were Joe Blank of West Palm Beach, chairman of the County Citizens' Committee which is pushing effort for the bond issue; Mrs. Richard Uhl of Lantana, county PTA president last year; Ralph Kettner of West Palm Beach and Herman Close and Julius T. Harris of Belle Glade.

Blank pointed out the essential need for providing and maintaining good schools in order to make possible a continuation of "The American Way of life."

Emphasis was given to the importance of more than 90 percent of the county freshers casting their vote in order that the bond issue election be a valid one. Then, a majority vote casting must okay the bond issue, before the county can realize additional school funds.

Enthusiasm was shown by both the Pahokee and Belle Glade meetings seemed to be high concerning the bond issue.

Will Hold State Water Level Hearings In Miami

GAINESVILLE — To determine the most pressing water needs of Florida today, the Florida water resources study commission plans a series of public hearings to start in Miami Oct. 22 and moving through seven other cities, winding up Nov. 1 in Orlando.

The commission, headed by Byron E. Herlong of Leesburg, study of water problems with the conclusion that "in general, total water resources of the state exceed the needs within the foreseeable future if properly managed."

However, mismanagement of water resources and indifference to the future needs were pinpointed by the commission in a series of tentative findings.

Following the Miami meeting the commission will move to West Palm Beach Oct. 23, and Fort Myers, Oct. 24.

The Miami meeting, to be held in the Chamber of Commerce conference room, and all other sessions start at 9 a.m.

Principal subjects to be discussed at these meetings and to which the commission has invited public comment, are:

GRADUAL permanent lowering of the general water table and the threat to municipal, industrial and private water supply systems.

INTRUSION of salt water created by large withdrawals of fresh water and excessive drainage.

DEVELOPMENT of definite laws to determine rights of water users in surface and underground water supplies in rivers, lakes and seashores.

RECREATIONAL use of fresh water and the rights of the public to free access to seashores, lakes and streams.

WASTEFUL flow of fresh water from artesian and deep wells.

POLLUTION of fresh waters in rivers and lakes by industrial users and municipal sewage systems.

CORRECT disposition of flood waters in certain areas and over-drainage in others.

PROBABLE need of an over-all administrative agency with power to implement a basic water policy, as established by the state legislature.

The commission was established last year on the recommendation of Gov. LeRoy Collins, appointing Herlong chairman, to serve with him James A. Ball, jr., Belle Glade, vice chairman; B. W. Helms, jr., Lake Wales; Senator Doyle E. Carlton, jr., Wauchope; Senator H. B. Douglas, Bonifay; State Rep. Roy E. Surles, Lakeland, and State Rep. Harry W. Westberry, Jacksonville.

We can't think of a better name to head up the drive by average citizens to get above-average schools for Palm Beach County than "Joe Blank." Unlike the legendary "Joe Smith," who played such prominent role in the GOP national convention, Joe Blank is a real person, living in West Palm Beach, and is chairman of the Citizens Committee For Better Schools.

With everybody again talking about the location of the county courthouse annex in the Glades, it's too easy to refer to as the sub-Glades courthouse. We suggest it be called the "Super-Glades Courthouse."

The mythical Glades football championship will be settled tonight if Clewiston defeats Belle Glade. Pahokee's Blue Devils no doubt are pulling for a Belle Glade victory tonight—so the Devils can have the chance to explode a myth or two when they meet BG's Golden Rams in the season's finale.

OBSERVER Correspondent. Mrs. A. H. Scruggs of Canal Point notes that fugitives from the law tried to steal the auto of Rev. L. A. Sparks last week. When the pastor first was en route to his CP charge his auto was side-swiped. Later, in CP, it was involved in a minor accident. Mrs. Scruggs suggests the pastor's auto is an example of "what the Lord giveth, the devil tries to take away."

BY WIN PENDLETON

THE HOME STRETCH—Less than a month now—before "alibi" season. That's when the expert who told you who was going to win the election will be telling you who his man lost. Some folks say the season began this week, following the World Series. But that really isn't so.

Baseball fans are pikers compared to political pundits. Anything you are hearing today is only a warm-up to a sort of pre-season flexing of the alibi. Somewhat on the order of the master of ceremonies calling over his mike, "one, two, three, four, testing."

The true "alibi artists" only come out from under their rocks once every four years. They emerge with the opening of the "official" season. This season begins at some undetermined hour between the closing of the polls on Nov. 6 and the moment that the individual realizes his man is a dead duck. In this day and age that doesn't mean the next day when the votes are marked final and official can begin work before they get to bed on Tuesday night.

You might ask, "Where are these artists now? Where do they hide?"

Please! You mustn't be naive. They're all around you. No, they aren't in disguise. They just go under a different name. Today, they are the "experts"—it's only after Nov. 6 that they become the "artists." An "alibi artist" might even be called an "unlucky expert."

COUNTY PTA LUNCHEON IN BG TUESDAY

The Palm Beach County Council PTA meeting will be held Tuesday at the Belle Glade Woman's Club. Registration will begin at 9:30 a.m. and "call to order" will be at 10 o'clock. Reservations for the luncheon, which will be \$1.25 per plate, must be made by noon, Oct. 13, with Mrs. Floyd Wilder, P. O. Box 123, South Bay.

Then comes election day. The votes are counted. And a new day dawns. Here comes a friend—bright and early. Maybe with a gloomy face (but not always).

"Say," he says, "that sure was something wasn't it. I told you not to count on things for sure didn't I? Here, let me show you something. Have you got a pencil? Let me show you what happens."

Please don't laugh at him too hard, brother, 'cause that might even be me, too.

FARMERS MAY FIGURE SOIL BANK \$\$ FOR SOCIAL SECURITY

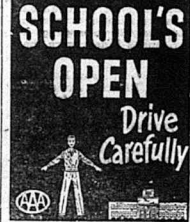

GAINESVILLE—Annual payments which farmers receive from participation in the Soil Bank may be included in determining the gross farm income for Social Security purposes, it is pointed out by Dr. C. C. Moxley, associate economist with the Florida Agricultural Extension Service.

It will help build the Social Security base where it appeared earlier that the farmer participating in the Soil Bank might lose gross farm income by not producing the crop, he says.

This involves the payments provided for allotted crops placed in the acreage reserve. In Florida it will apply to farms where there are allotments of cotton, corn, tobacco, or peanuts. In the case of the Conservation Reserve, however, it will not be possible to count the entire payment. It will be necessary to separate the established "cost sharing" portion. This reimbursement of money spent does not appear to be considered as income.

The annual rental in the Conservation Reserve, which in Florida ranges from \$5 to \$11 per acre, can be included in the gross farm income Social Security base, according to recent Social Security rulings.

PAHOKEE - CANAL POINT

THE TEENAGERS

By Douglas Gillis and Ronnie Hitchcock

Well, here we are again ... PHS was in gloom again after Ft. Pierce beat the Blue Devils in a very thrilling game. From what we hear, the "cats" around school are very thrilled about the score. After all, it could have been worse.

The records of the week are "When the Lights Go Down Low," sung by the one and only Al Hibbler, and "A Miracle of Love" by another great singer, Irene Holmes. Still our top record is "In the Still of the Night" by the Five Satins.

I have heard that some grow-up have asked kids to keep away from a popular drive-in. We are in favor of not making a fool out of anyone, not even ourselves. But we favor having a place for teenagers, and the drive-in is

serving us with a place that we can be together.

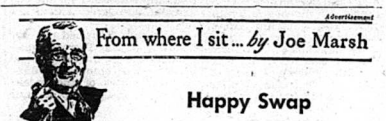

Friday night the Blue Devils travel to Delray to play the Seacrest team. Let's back them up to the limit, but do drive safely on our way over there and back.

We want to make a correction: Lory Rockwell and James Stamps were elected "most talented" in the superlatives. Elected to the senior Annual staff are Susan Johnson and Wayne Unwin, junior editors.

Have you bought your Devil's Trail yet? It's now on sale, \$1.50 now and \$1.50 when they come. Don't forget about the thought for the week! Don't brag on anything that you did yesterday—it shows that you haven't done anything today.

SKY-WATCHING and looking after the children have been combined in this Ground Observer Corps post at Mechanic Falls, Me., by installing a children's playground. This innovation solves the problem of mothers who complain that they cannot do their part in Operation Skywatch because there is no one to look after their children while on duty. Happy Swap

More and more farmers—who badly need hired help sometimes, but can't afford a full-time hand—are making deals with young town workers and the employers they work for.

For instance, young Hop Hooper now lives rent-free on Easy Roberts' farm. In return he works about 100 days a year for Easy for a farmhand's pay.

The rest of the year Hop works for his "regular" boss ... Buzz Ellis, the electrician. Buzz just speeds up his business when Hop's on hand—slows it down

when he isn't—and, like Easy, pockets healthy savings in wages.

From where I sit, it's great how people with different backgrounds—and different viewpoints—can co-operate. How about more of us trying that? I live in a town—maybe you're a farmer. I'm partial to a good glass of beer—you may prefer coffee or milk. But we can make things pleasanter by ignoring differences and giving each other a "hand."

"During the 1955-56 season I used DITHANE M-22 exclusively on over 1000 acres of tomatoes. Disease control was excellent ... In spite of generally poor growing conditions my overall average yield was 350 field boxes per acre, which was highly satisfactory under the year's conditions."

JOHN W. CAMPBELL

For excellent tomato disease control—
grower uses **Dithane M-22** exclusively

During the past few years, one prominent grower after another has found that DITHANE M-22 (maneb) helps give the highest possible yield of marketable tomatoes that growing conditions permit.

There are three reasons: (1) DITHANE M-22 gives outstanding control of late blight and also protects effectively against gray leaf spot, early blight, Septoria leaf spot, gray mold and anthracnose; (2) it is safe for blossoms, fruit, and vines when used as recommended; (3) it helps the vines stay healthier, with rich green foliage.

If you spray, you can obtain DITHANE M-22 in two bag sizes with just the right amount of wettable powder for any standard tank capacity. Your local dealer also has blended dusts containing DITHANE M-22 with or without insecticides.

DITHANE is a trade-mark, Reg. U. S. Pat. Off. and in principal foreign countries.

Church Activities In The Glades

1st Baptist Church Has A Bacom Point History

BY MRS. JOE THOMPSON

First Baptist Church, Pahokee

As the early disciples must have done, Baptist pioneers of the Glades area met under a shade tree at Bacom Point to worship. It was here by the lakeside that the Word of God was taught and messages were delivered by such well-known preachers as Brother E. M. C. Dunklin, Okeechobee, of the Baptist Mission Board.

It was on March 5, 1922, under the leadership of Rev. A. J. York ("Father York") that the First Baptist Church of Pahokee was formed.

Dr. C. M. Brittain, Florida's secretary of missions, was invited to come to Pahokee to help select a proper building site. The young church got excited and impatient and decided to surprise the mission secretary.

They selected a location, cleared the site, and completed the first worship house in three days. It was a little 20' by 30' building and each male member had donated the material and made two benches each. Brother Dunklin presided at the dedication sermon.

In September of 1923, the church entered a revival meeting with Rev. P. T. Taylor as evangelist. The building was too small and our church got its first building addition — a 10' by 30' lean-to. The building was badly damaged in the hurricane of 1928.

Pastor W. C. Taylor led in the erection of our second house of worship. It was about 50' by 80' with four classrooms and a vestibule. This building was enlarged once by an addition of a shed.

Our next building was Fellowship Hall. Under the direction of Rev. A. Moberg, it was built to meet the social and educational needs of our growing church. The hall, built in 1945, was used for worship services. It had a kitchen and one class room. Later, during the ministry of Rev. H. H. Shirley, sr., a baptistry was built in Fellowship Hall. In the summer of 1946, during the ministry of Rev. Moberg, the educational building was constructed.

"Babyland," our nursery building, was purchased and placed on our property in November, 1949.

Our church has owned three pastor's homes. The first was a residence behind our educational building. The next home was purchased on Anthon Avenue in June, 1944. Both of these homes were sold.

(Continued From Page 1) the bond issue. Meanwhile, secretaries of civic clubs, PTA, and fraternal organizations throughout Palm Beach County were asked this week by the Citizens Committee for Better Schools to sign their membership lists for voters who will not be present for the Nov. 6 election.

Club and organization members who may be in the north until after this fall, and whose vote if they are county freeholders is vital to the proposed school bond issue, have until Nov. 1 to get their absentee ballots.

Secretaries of all organizations having members "away" until the winter season begins were asked by Blank to form canvassing committees to check on absentee members, as well as on friends who are out of town. Out-of-town freeholders can get their absentee ballot applications by writing to the Supervisor of Registration, County Court House, West Palm Beach. Supervisor DeWitt Upthegrove will send out the ballot on receipt of the application before Nov. 1. The absentee voter then has until Nov. 5 to return his ballot to the supervisor.

CLEWISTON, BG WILL SETTLE GRID-TITLE TONIGHT - MAYBE

The mythical Glades football championship may be decided tonight when unbeaten Clewiston meets unbeaten Belle Glade tonight at 8:15 on the latter's gridiron.

With both teams riding the crest and tied for the Suncoast Conference lead with two other clubs, fireworks aplenty are expected, with a capacity sold-out throng of Glades football fans due to witness the carnage.

Clewiston, 45-0 conquerors of Pahokee, could claim the Glades title by defeating the Golden Rams, who play Pahokee in the season finale.

And scouting the Belle Glade team will be coach Web Pelli. Pahokee's high team, which completed this week's play early by taking on Seacrest high at Delray last night.

Both Belle Glade and Clewiston have amazing records to date. The Rams are unscored upon and have scored 75 points in whipping three opponents. Clewiston has scored 110 points in three games, yielding opponents 16 points.

Clewiston goes into the game as favorites, despite comparative scores against Seacrest, which lost, 14-33 to Clewiston and 0-34 to Belle Glade.

The Tigers have a vaunted offense which, as Pahokee discovered, is capable of running around, through, and over the defensive team.

Meanwhile, Coach Jim Maynor reports his Ram squad is "up" for the game. Tackle John Everett, out two weeks with a leg injury, has returned to duty and will see at least some action.
